EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mathew Perrone on 2/17/04.

The application has been amended as follows:

Claim 16, line 2, change "Claim 13" to -Claim 1-

Claim 17, line 2, change "Claim 13" to -Claim 1-

The following is an examiner's statement of reasons for allowance:

Claim 1 states the limitation of the joining system being a bayonet system, wherein there are at least two male bayonet attachments and two female bayonet attachments.

Kadinger (USPN 6393645) teaches a tube cleaning device comprising an interior cleaning member to clean the inside of a tube and an exterior cleaning member to clean the outside of the tube. There is a snap fastening joining means for removably securing the interior cleaning member to the exterior cleaning member. The interior member has a male housing, wherein the male housing also acts a drive member. The drive member is a drill mounting post for receiving a power drill. The exterior cleaning member has a female housing to receive the male housing, wherein the female housing is adapted to receive the tube. Kadinger teaches the essential elements but fails to teach two male and female bayonet attachment means nor would it have been obvious to combine references to obtain the invention as claimed.
